

TECHNICAL DATA	SIMPLICITY FILLER
Types of containers	Standard: Politainer and Cubitainer from 1 to 30 lt; Optional: other types of containers *
Production (ref. water)	35 Lt / ' - 7.70 / 16.50 gal / ' <i>(variable according to pressure, viscosity, capacity, etc.)</i>
Product compatibility	Standard: liquids compatible with steel Optional: other liquids *
Operating hydraulic pressure	Ref. to water: 1,5 bar (other pressures according to viscosity *)
Flow measurement range	D.at 5 to 100 l / min - From 1.1 to 22 gal / min
Modularity	Modular from 1 to 3 dosing heads; can also be implemented in retrofit
Ready for automation	Standard: roller sliding surface for ergonomic filling line insertion
Pump	Optional - <i>Optional</i>
Power supply	220/240 Vac mono - 110 Vac mono
Pneumatic power supply	5/7 bar - 72.5189 / 101.526 psi
Operating temperature	+ 10 ° C / + 60 ° C; 50° F / + 140 ° F
Machine dimensions	1200 x 1600 x h. 2200 -47.24 x 63 x h. 86.61 "
Machine weight	About 255 Kg - 562.18 lbs
* Validation from our technical office needed
